

SonoProtect™ **SERVICE AGREEMENTS**

**ADDITIONAL PROTECTION FOR
YOUR PATIENT CARE INVESTMENT**

Maximize performance,
Minimize downtime.

We build durability and reliability into every ultrasound machine we make. Which is why we stand by this commitment with an industry-leading, five-year warranty on our ultrasound systems and transducers.*

However, accidents can happen. With a **SonoProtect Service Agreement**, supplemental coverage helps maximize performance and minimize downtime, so you can concentrate on treating patients.

Protect your investment beyond the original five-year warranty with a SonoProtect Standard service agreement, or enhance your coverage from day 1 with a SonoProtect Total service agreement.

Choose your plan:*	SonoProtect Standard	SonoProtect Total
System and transducer repair due to internal malfunctions	●	●
Coverage for accidental transducer drop, including cracked enclosure	●	●
Next-day loaner or replacement	●	●
System and transducer repair or replacement due to abuse and mishandling	—	●
Transfer your existing coverage when you up-trade your SonoSite system	—	●
ACR accreditation testing and certification for system performance	—	●
First-priority on availability of latest software updates	—	●

* Exclusions apply and specifications are subject to change without notice. For complete details on each program offering, please refer to the SonoProtect terms and conditions.

Prevent costly downtime.
