

## SonoSite Introduces the Next Generation of Stands.

*After many years of providing reliable and durable Mobile Docking Systems (MDS), SonoSite is in the process of retiring all MDS\* stands. This change went into effect in June 2010. However, SonoSite will continue to provide service and support for all MDS<sub>e</sub> and MDS Lite models through June 2012.*

Our new Universal Stands bring exciting improvements and supersede the MDS stands. Specially designed to meet the demands of the hospital or office setting, the Universal Stands are the first stands that can be upgraded to incorporate SonoSite's PowerPack, a power solution that significantly extends a system's battery life on a single charge.

- Universal Stand**—The Universal Stand offers physicians a more ergonomic design with a lighter, more robust and modular architecture. Ideally suited for point-of-care situations, the Universal Stand can be easily maneuvered through crowded hospital corridors and optimally positioned by the patient's bedside or in other space-constrained areas. It is available in two different configurations—the H-Universal™ Stand and the V-Universal™ Stand—for compatibility with our third- and fourth-generation products. The H-Universal Stand works with the M-Turbo®, TITAN® and MicroMaxx® ultrasound systems, while the V-Universal stand is built for the S Series™ and NanoMaxx™ ultrasound systems.
- PowerPack**—The ultimate power solution for hospital and office settings, SonoSite's PowerPack is an innovative and streamlined external power module. With the ability to double a system's battery life, the PowerPack provides improved flexibility and efficiency, enabling physicians to see more patients on a single battery charge. The PowerPack can be easily installed on the SonoSite Universal Stand for a ready-to-go charging solution. (PowerPack is Works in Progress.)

*Please visit [www.sonosite.com/mds](http://www.sonosite.com/mds) to learn more about SonoSite's Universal Stands.*

\*Products being retired are the SonoSite MDS<sub>e</sub> and MDS Lite stands.

H-Universal Stand

The Universal Stands can be ordered with a deluxe option, which aids workflow by offering additional storage.
